# The BFI

- Courses taught in English are Language and Literature, History-Geography, and Global Studies. The language level is comparable to that of courses in English-speaking countries and the pedagogical approach is based on that of an A-level course in the UK. The BFI is recognized as the equivalent of 4 A-level exams by UCAS.
- The Literature program focuses on literary works that change every two years.
- The H/G curriculum is the national curriculum adapted to the British Section, with some case studies or themes focused on the UK.

# BFI – The Key Takeaways

- Greater number of final exams and more final oral exams than classic French Bac
- Greater weight given to international section in BFI

# Connaissance du Monde

- A research-focused class in preparation for post-bac studies
- Assessment for the bac is oral only, so it is an opportunity to hone presentation skills
- Strengthens analytical, critical-thinking, and academic writing skills
- The search for and exchanges with an expert in the field promotes learning more formal communication skills
- A great opportunity to explore individual interests in a particular field of post-bac study, and if the research topic incorporates specialty course theme(s), it can serve as preparation for the oral presentations for the Grand Oral as well.
